062 KOOKIE CUBE induction cooker

Kookie Cube induction cooker cooks food in significantly reduced times, guaranteeing remarkable energy savings. The induced current heats only the cooktop which is directly in contact with pots, thus preventing burns. It shuts off automatically when the pot is removed from the cooktop. Equipped with a control panel with a digital display, that makes it very simple to use. The ceramic cooktop is easy to clean. The compatibility of pots can be verified using the provided magnet.
